Abstract

Rooted in Renaissance harmony and feminine myth, the Carpo Mirror from the Muses Collection transforms reflection into a site of empowerment.

Inspired by Botticelli's Primavera, Goti uses Venetian glass techniques—layering and silvering—to blur transparency and matter.

The work bridges the ancient and futuristic, reimagining identity and ornament through a powerful female lens.

Designed by the artist and made by Vetrulia artisans exclusively for Todd Merrill. For any enquire contact info@toddmerrill.com
